It's a privilege to be part of the 10th Annual PowerPak Bull Sale. Thank you to Dennis & Linda and to Tony & Lorraine Bruder for including us in the PowerPak family 4 years ago!

Bull Sale time is a very exciting time of the year for us and we hope it's a time of year you look forward to as well in anticipation of new and exciting herd genetics and tried and true favorites. As Pure

Bred Breeders, we strive to produce animals that are good-tempered, have great maternal qualities, and impressive performance.

We're excited to offer new genetics from PA Power Tool, Connealy Counselor, and GH Adams Buckson in our sale this year. Our Iron Mountain herd sire is one of the foundations that we will continue to build our herd on because his offspring are so consistent. Their smooth shoulders and long bodies allow for calving ease, especially on heifers, while providing the frame to grow those valuable extra pounds. We've just calved out our first Hoover Dam daughters and are impressed in their mothering abilities, at how well they have kept their condition, and at their superb udder quality. We've had his steers in our feedlot and are very pleased with their muscling and performance. Hoover Dam will be a key part of our Breeding program in the future.

Every year we've been able to move calving a little earlier to get more mature bulls for you at Sale Day and we believe you will not be disappointed with the outstanding offering of yearling bulls this year. Come by and have a look for yourself!

YARROW CREEK FARM & RANCH

Dennis Lastuka & Linda Noecker

Dennis cell: 403-315-2614

Ranch Location: Twin Butte, Alberta

Linda cell: 403-394-5186

Mailing Address: Box 2251,

yarrowcreekranch@gmail.com

Lethbridge, AB T1J 4K7

www.yarrowcreekranch.com

Dennis and I were fortunate this year to have good rain, good pasture and good hay. The cows were happy and the calves weaned heavy in the fall. We introduced the CAA Zoetis performance program this year in an effort to continue to learn about our progeny and pass ratings onto you. In celebrating our 10th Anniversary Power Pak sale, we are thankful for all new customers, returning customers, family, friends & neighbors for their support. The cow herd and our bull stock has improved over those 10 years offering a nice set of bulls for you this year. On Sat, Aug06th, we are hosting the Southern Alberta Angus Club field day at the farm so you are all welcome to come meet other angus breeders and view their awesome cows and calves. Steak supper & refreshments will be served and overnight campers are welcome.

Call or visit anytime.

POWER PAK BULL SALE

MARCH 9, 2016

1:30 P.M.

Fort Macleod Auction - Fort Macleod, AB

- SALE DAY CONTACTS -

- Purchased from the Hirschse dispersal sale in 2010 for use in our commercial herd.
- Liked his calve so much we used him in our Pure bred herd.
- However, due to time elapsed and a dispersal sale we were not able to Sire Verify (DNA) match him with any bulls with DNA on file for him. Therefore, we are not able to register his calves as pure bred.
- We are confident in his offspring that they will work for you in your commercial herds.
- His progeny are thick and full of muscle and will push the scales down for you.
- His heifers look the part with lots of volume and easy fleshing.

The Redemption bulls were well received last year and we bring you another set of very good calving ease bulls. Interesting though that he also comes with a little extra power and maternal. Not many bulls can have a spread of a -4.9BW and also have a +117 yearling weight. Needless to say he ranks in the top 1% for BW, YW, CE, Marbling and also Stayability. Now I know why Hueffle Cattle Co in Cozad NE was a little hesitant to sell the grand dam of this bull; the females we have retained and calved out this January and absolutely unbelievable. I look forward to what these cattle will do into the future. Calves are averaging BW of 78lbs and ratios of WW 103 and YW 105.

Capacity 1503C is a bull that brings a little punch with calving ease of +6.7 with REA in the top 10% and Fat in the top 4%. 1503C is out of an Oasis daughter on our treasured Lydian cow family line. These females have picture perfect udders and feet. Sidenote: also no sandcracks or feet problems at all (I swear it's also linked to genetics to some degree) These Oasis daughters are really starting to shine.

Corruption 1508C is a very nice combination of Redemption with Storm. I wish I would have had more Storm daughters as we lost him before his time. But his daughters are tremendous and powerful. Not sure if I would say this guy is a heifer bull. A little high BW of 92lbs but still has a calving ease of +7.3 and BW of 0.8. Zoetis i50K has him ranked in the top 13% for WW so he will put some pounds on those calves too. Corruption would definitely work on 2nd calvers, but you will have to decide depending on your cows and your management. Nice package

APEX was the high selling bull from Lauron Red Angus in 2014 and we were fortunate to be there that day to pick him up. He is a dark deep cherry red color with pigmented feet. He comes from an elite grand dam whom has produced numerous herdsires to multiple purebred breeders across North America. He brings to you performance and maternal strength. His calves will be ones to look for sale day and the future. He is being used extensively at Yarrow Creek Ranch and we look forward to his offspring in the future.

Oasis has truly grown into one of our outstanding herd sires here at Yarrow Creek. We now have daughters from him and they are outstanding mother cows with good milk, good udders and feet that are correct and true. These daughters have surprised me with their performance and maternal quality's. Phenotypically they are what we at Yarrow Creek are definitely looking for into the future. He continues to impress me. He's also in the top 1% for REA. His calves are averaging 87 lbs BW.

Red Brylor RSTD High Capacity

Red YCR Capacity 1513C is out of an all time GO TO heifer bull Red Brylor RSTD High Capacity whom has a BW of -6.7 and a CED of 17.1 so 1513C is following in good foot steps. I think the best part of all to the lucky buyer is on the female side. The dam Princess 1350A is a direct daughter of our all time leading cow 54S not to mention that she is also a full sister to our high selling bull in 2015 to Clear River Red Angus

I can't say enough for what X-Rated has done to put some power into our herd. Currently he is ranked in the top 1% in Weaning Weight and top 1% in Yearling Weight EPD's. To top that off he is also in the top 1% for Carcass Weight to be expected with a YW EPD of +123. Now if you are looking for a new herd sire for your cows one of the X-Rated calves will put nothing but money in your pocket. Lifetime WW ratios are 101 and 102 on females and males and YW ratios are 103 and 104.

Females are now producing at Yarrow Creek and now bringing that additional power to the forefront. All have great udders, good feet and the phenotype we were looking for. Last year sons went to Clear River Red Angus, Thistle Ridge Ranch. He is also an all Canadian Sire to make a nice touch

This is the last of the X-rated calves so don't miss out on this powerful set of bull calves.

Red YCR Choice 1582C is quite a bull. The #1 Weaning bull in our red angus herd (Linda's Black bulls 16C & 48C were #1 & #2 overall). Choice has a 81lb BW combined with a YW EPD +101. He had an 3.00 ADG at weaning and indexed at 113. What can I say Princess 54S just keeps on giving. Last year the full brother YCR Barack 420B was a high seller to Clear River Red Angus. Barack was one hell of a bull but Choice has the same performance and maternal quality's. Don't miss out, not sure if 54S can do it again. She may go into our donor program. All Canadian 🍁

EPDS BW 1	WW 62	YW 91
	Milk 16	TM 48

Red YCR X-Rated 1599C is a twin, so don't let the actual BW confuse you this guy is a herdsire cow bull. The dam Larkaba 918W has averaged 85lbs on BW on 5 calves, so good all round bull for a new herdsire with good curve bending EPD's. All Canadian sire too 🍁 Zoetis i50K also ranks him in top 5% for DMI (Dry Matter Intake) and 8% for RFI.

YARROW CREEK FARM

We strive to keep just the best in udder, feet & temperament in all our herd. It makes a difference to you and to us. In my bull roster, the O'Reilly Factor, Western Pendleton & Jindra Double Vision sires all carry great calving ease in their genetics. I have 6 head on offer and like them all.

This U-2 Blackrock sire 209A has a BW of 81# and is typically a cow bull. His calves are thick, full of performance & get up and go. The 4 head I have on offer are smooth shouldered and good footed.

– TERMS & CONDITIONS –

Terms of Sale: The terms of the sale are cash or cheque, payable at par at the sale location. No release of livestock will be given until satisfactory settlement has been made. We reserve the right to withhold animals from shipment for which payments have not been received prior to departure time.

Certificates of Registry: A certificate of registry will be duly transferred to the buyer by the breeder for each bull after complete and full payment has been made.

Cattle Inspection & Identification: CCIA tags will be in all bulls. All bulls will be available for inspection prior to the sale.

Breeding Guarantee: We guarantee to provide you with a sound breeding bull, capable of passing a breeding soundness evaluation performed by a licensed veterinarian. In the unlikely event of any dispute, the regular terms and conditions that are standard with the Canadian Angus and Canadian Simmental Associations shall apply. Customer satisfaction is paramount to us.

Fertility: All yearlings will be scrotal measured and palpated prior to the sale and all yearling purchases will be semen tested prior to delivery. All bulls will meet or exceed breed standards.

Delivery of Bulls: We will offer free delivery within 200 km. of home; after that at cost. Delivery on the yearlings will commence early April unless prior arrangements have been made with the seller.

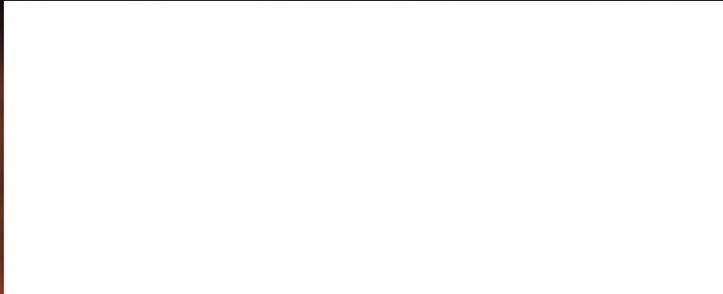

Post Sale Bull Development: We will winter your yearling bull purchases free of charge until April 1, 2012. After that, feed at cost of \$2/head/day will be charged.. All bulls returning to the consignors' must be insured. All bulls will be housed at buyers' risk, the consignors will not be responsible for any type of injury while the bulls are in their care.

Bull Insurance: Ownership risk to the purchaser commences when the Auctioneer's gavel falls. Livestock coverage will be available at the clerk's desk from our appointed representative on Sale Day.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers; neither the sale staff nor the owners assume any responsibility in this manner and disclaim any liability, legal or otherwise, in the event of an accident or loss of property.

Announcements: Any changes from information in this catalogue will be announced from the auction block. Such changes will take precedence over the printed matter in the catalogue and therefore buyers are cautioned to pay close attention to any such announcements.
